

2<sup>nd</sup> World Congress on  
**CONTROVERSIES  
IN OPHTHALMOLOGY**

*Save the dates*

**MARCH 3-6, 2011**

Barcelona, Spain

*Co-chairpersons*

Prof. **Neil Bressler**, USA • Prof. **Anat Loewenstein**, Israel

*Preliminary Faculty List*

**J.L. Alio**, Spain  
**E. Assia**, Israel  
**A. Augustin**, Germany  
**F. Bandello**, Italy  
**N. Bressler**, USA  
**S.B. Bressler**, USA  
**G.E. Rose**, UK

**A. Heijl**, Sweden  
**D.A. Jabs**, USA  
**H.D. Jampel**, USA  
**F. Kuhn**, USA  
**S. Lightman**, UK  
**A. Loewenstein**, Israel  
**N.R. Miller**, USA

**J. Moisseiev**, Israel  
**K.K. Nischal**, UK  
**P. Nucci**, Italy  
**J. Pe'er**, Israel  
**W.J. Stark**, US  
**L. Zografos**, Switzerland

# 2<sup>nd</sup> World Congress on **CONTROVERSIES IN OPHTHALMOLOGY**

## *List of Topics*

### **CATARACT**

Cataract in complicated cases  
IFIS  
Infection prophylaxis  
Instrumentation  
Intraocular lenses- multifocal, accommodating, toric, aspheric  
Micro Incisions  
Subluxated lenses  
Suture fixation of IOLs  
Weak zonules

### **CORNEA AND EXTERNAL DISEASE**

Acantomeoba  
Amniotic membrane  
Corneal ulcers  
Dry eye  
Herpetic keratitis  
Keratoconus- cross linking, intracorneal rings  
Keratoplasty- penetrating, non-penetrating, DSAEK and DMEK  
Pterygium

### **ETHICS & ECONOMIC ISSUES**

Industry funding of CME activities  
Speakers bureau

### **GLAUCOMA**

Cataract surgery as a pressure lowering procedure  
Compliance to therapy  
Laser surgery- ALT, SLT  
Medical treatment  
Ocular hypertension  
Surgical treatment- trabeculectomy, valves, use of trabectome  
Visual field progression

### **IMAGING**

Fluorescein  
OCT (Time domain, Spectral domain)  
Novel imaging modalities

### **NEURO-OPHTHALMOLOGY**

Acute pupil Involving 3<sup>rd</sup> nerve palsy  
Cranial nerve palsy  
Optic neuropathy  
Pharmacological testing  
Pseudotumor cerebri  
Pupil disorders

### **OCULOPLASTIC SURGERY**

Brow suspensions in myopathic patients  
Dacryocystorhinostomy, including endoscopic  
Decompression: Deep lateral, balanced lateral and medial wall  
Endo brow lifts:  
Integrateable vs. non-integrateable implants  
Investigation of the lacrimal patient:  
Thyroid eye disease

### **PEDIATRIC OPHTHALMOLOGY & STRABISMUS**

Amblyopia treatment  
Anterior segment dysgenesis  
Current amblyopia therapy: Atropine vs. occlusion; weaning vs. cut off; age to stop?  
Nasolacrimal duct obstruction  
Nystagmus surgery  
Pediatric cataract  
Pediatric retinal detachment  
Pediatric retinal dystrophy  
Ptosis in children  
Refractive surgery in children  
Retinopathy of prematurity  
Thyroid related strabismus

### **REFRACTIVE SURGERY**

Astigmatism  
High myopia  
Kerectasia  
Presbyopia

### **RETINA**

Age related macular degeneration - new treatments and regimens, including surgical options

Diabetic eye disease- new treatments and regimens, including surgical options  
Macular edema (vascular, pseudophakic)  
Macular surgery (peeling, dyeing, irradiation)  
New vitrectomy instrumentation and techniques  
Only laser for diabetic retinopathy?  
Practical patient management in view of clinical trial results  
Vascular occlusion- new treatments and regimens, including surgical options

### **TRAUMA**

Anterior segment including chemical injury  
Eyelids, lacrimal, orbit: Management  
Foreign bodies  
Orbital trauma  
Posterior segment  
Timing of surgery

### **TUMORS**

Chemotherapy- systemic, intraarterial, intravitreal  
Conjunctival tumors  
Controversies in the management of uveal melanoma  
Controversies in the management of lymphoma  
Diagnosis, including vitreous, retinal and choroidal biopsy  
Resection of ocular tumors  
Retinoblastoma

### **UVEITIS**

Acute & progressive retinal necrosis  
Behcet's disease  
Immunosuppression  
Juvenile idiopathic uveitis and arthritis  
Ocular mucous membrane pemphigoid  
Scleritis  
Treatment of intractable uveitis  
Vogt Koyanagi Harada

*Abstract submission deadline:*

**DECEMBER 15, 2010**
